#### UMPIRE JACK SHERIDAN RETIRES

CHICAGO, Sept. 22.—Jack Sheridan, dean of the American league umpiring staff, arrived in Chicago yesterday with a plea to President Johnson to

be relieved permanently from further duties as an umpire. The league president acceded to Sheridan's wishes and presented him with the "medal of honor," the first ever awarded to an umpire. It is a handsome souvenir given in consideration of Sheridan's long service.

The retired umpire expects to leave for California on Sunday to spend the winter. Mr. Johnson said that while Sheridan did not wish to umpire any more, he would return from the coast next season and remain in the American league in an executive or managerial capacity. President Johnson declined to discuss any probable opening which Sheridan might fill.

## NAVARRO CAUSES BIG SURPRISE

Long Shot Defeats Odds-On Favorite—Talent Make a 'Killing' on Parker's Mount.

Navarro, with Parker up, at 10 to 1, furnished the big sensation in yesterday's running program at the Four State fair track. Heavily played as the long shot, Navarro easily outran the favorite, Swagertator, and brought home the money in the fifth and last event on the card.

The fourth event, which gave promise of being one of the best of the afternoon, turned out to be a bitter disappointment to the bookmakers, horsemen and players. It appears that there was a misunderstanding when the barrier was sprung by Starter H. W. Dunn. The start was manifestly unfair and after the horses had circled the track the judges made an effort to have the race started over. The barrier having been sprung and the flag dropped, it was impossible to restart the race under all jockey club rules. The judges promptly called all bets off. This caused considerable dissatisfaction among the talent, but it was the only recourse, under the circumstances, left for the judges to follow.

The matter of whether the purse in this event would be paid or not was not settled last night.

Yesterday afternoon's results follow:

First race, 2:17 class, trot or pace—Called off on account of muddy track.  
Second race, five furlongs—Nidad first, Dofy second, Hadad third. Time 1:05 3-5.

# The Bandbox

—A NEW NOVEL By  
LOUIS JOSEPH VANCE

begins in the October Munsey. It is by the author of "The Black Bag" and "The Brass Bowl," two of perhaps the most notable mystery stories ever written. "The Bandbox" is just such an impelling tale. It opens in London, where a mysterious bandbox is left upon the hands of a puzzled young man. The action quickly moves to New York, where it plunges into a whirl of surprising incidents that set a new pace for story-writing. There is a scene on a lonely island that would do credit to the pen of a Stevenson, together with other strange and fascinating situations. The first instalment appears in

## TRADE REVIEW

### NEW YORK, Sept. 22.—Bradstreet's tomorrow will say:

This week's reports regarding distribution trade are more favorable than they have been for some time. Not only is there a better feeling as to the future, but there are in several lines signs of improvement.

Many staple lines, such as groceries, wool, clothing and wearing apparel in

general, share in the enlarged buying movement. Hardware, too, is in good demand. Buying of furniture, heretofore very backward, has picked up at several centers, though the movement in this line is below normal. Demand for soft coal has improved and export trade in flour, and to a large extent in wheat, makes a satisfactory showing.

At the same time, reports as regards retail trade are irregular, this branch of distribution having been helped where autumn-like temperatures prevail, while being deterred where the weather has been warm.

Business failures for the week in the United States, ending September 21, were 236, against 219 last week, 190 in the like week in 1910, 171 in 1909, 267 in 1908 and 165 in 1907.

Business failures in Canada for the week ending with Thursday numbered 28, which contrasts with 29 last week and 22 in the like week of 1910.

### Dun's Review.

NEW YORK, Sept. 22.—Dun's review of trade tomorrow will say: Looking at the situation as a whole,

it is apparent that the volume of business is much below producing capacity, and there is little speculative anticipation of future wants. What is not so clearly appreciated is the daily requirements of the American people, even on a more economic basis, are increasing with the normal growth of population, and that slowly the gap between capacity and consumption is being bridged.

That capital is halting in entering upon large enterprises by signs of the world unrest is plain, but business men apparently are learning to adjust their affairs to these unsettled conditions and to do business while big problems are being solved.

MHI operations in iron and steel are well maintained, since new business shows no marked shrinkage, and it is estimated that the leading interest is working at about 75 per cent of capacity. Further concessions in prices are noted in virtually all finished products, although in the wire trade manufacturers are now making slight advances over the low level.

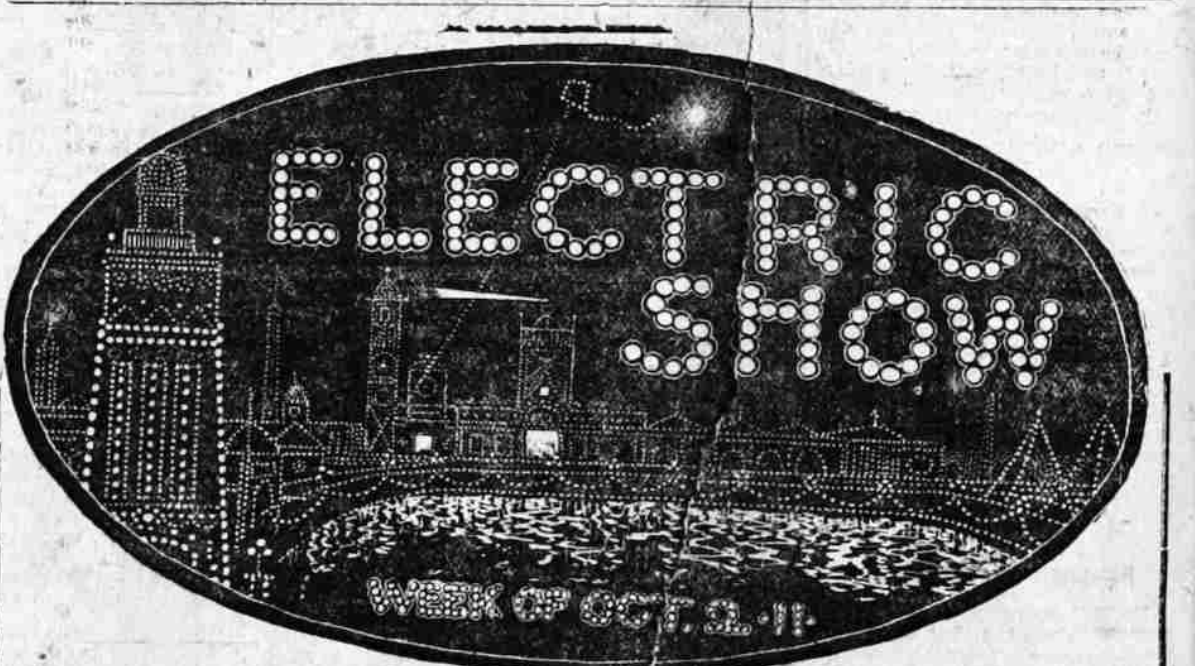

Moderate sized orders for railroads are reported.

## FEARS MADERO WILL ATTACK FRANCHISE

NEW ORLEANS, Sept. 22.—Fear that the new government of Mexico is likely to attack the liberal oil drilling franchise granted him by the Diaz administration, has impelled Lord Cowdry of England to open negotiations with the Waters-Pierce Oil company for a possible transfer of the franchise so they might come under American protection, according to the statement of S. G. Hopkins, of Washington, former legal adviser of Francisco I. Madero, Jr.
